True Colors is CT’s premier LGBTQ+ youth organization, serving more than 12,000 people annually. People like Leo* whose mentor helped coach him through his first shot of testosterone last week, something he wanted desperately but didn’t think he could do. Or Ty* who graduated from high school – something no one thought was possible when his mentors began working with him as a suicidal 11 year old; Or Shay* who is finishing up her Masters in Social Work but came into the program as a scared, angry 14 year old bouncing from group home to group home. What do they have in common? True Colors and donors like you.

We need you know more than ever. A donor at the Hartford Foundation for Public Giving just offered True Colors a $40,000 challenge grant! They will match every new dollar we raise between now and the end of the year – up to $40,000!

Imagine, every dollar you give to support LGBTQ+ youth is doubled – and if your company supports a matching grant program, every dollar will be tripled!

That is 40,000 reasons why you should make a donation right now!
